ethan caflisch  
(e)(thin) (cuh)(fleesh)

*born 1993 in oshkosh, wisconsin  
based in london, england*

*ethan caflisch's practice is multidisciplinary;  
combining painting, sculpture, photography, and film.*

*often merging graphic clarity with shaky-hand-made  
elements.*

*using materials like linen, canvas, wood, and found  
objects.*

*exploring themes of communication, memory, and  
maintenance - both emotional and physical.*

*creating a dialogue between utility and subjectivity,  
and between the personal and the universal.*

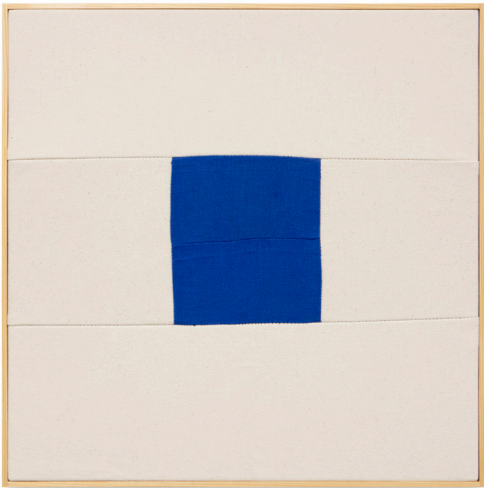

*the work is often identifiable by its flattened forms,  
visible repairs, and use of subtle embraced texture,  
reflecting ideas of impermanence and care.*
