A new design integrity

KITCHEN COMPENDIUM

Step inside 12 kitchens from around the globe
where design is shaped by craft.

BRICK 99

BY

AM DESIGNS

East Flanders, Belgium

Brick 99 by Belgian studio AM designs takes in views of the Scheldt river, in the country's East Flanders region. The entire apartment is designed around this outlook, inviting natural light through large openings and terraces.

The kitchen exists as part of the open plan living and dining area, so every effort was made to conceal it being a workspace. "I wanted the kitchen to integrate seamlessly," AM Designs founder Mark Mertens adds, concealing Gaggenau appliances behind the floor-to-ceiling wall joinery that runs along the side of the kitchen.

AM Designs visualised the kitchen as "pieces of free-standing furniture", achieved through a signature palette of Douglas fir timber and Pietra Dei Medici stone, warmed by brushed brass fixtures. "Ultimately, the stone and timber needed to connect with the large outside terraces and surrounding nature," Mark adds.

The Brick 99 kitchen was designed to not appear as a workspace. All appliances are concealed behind joinery which forms one wall in the apartment's open plan kitchen and living area.
