	<p>..... </p> <p>Note: For families who are flying: should the child need to take liquid medication and/or liquid food supplements during the flight (°), the family needs to carry along a medical certificate stating the passenger's name and the vital dosage of these medicines and/or food supplements for the customs and airport security controls. I will give the family this medical certificate.</p> <p>(°) Due to security rules limiting liquids on board the aircraft, passengers are not allowed to carry along liquid containers of over 100ml in their hand luggage. Medicines and food supplements however are exceptions provided the passenger has a medical certificate stating that he/she needs to take these medicines and/or food supplements during the flight.</p>	<input type="checkbox"/> yes (*)	<input type="checkbox"/> N/A
	<p>Medication contraindicated:</p> <p>..... </p>		
	<p>Allergies (food, medication, other):</p> <p>.....</p>		
	<p>In case of emergency, the parent(s) know(s) the emergency phone of our hospital to call on my services and those of my team.</p>	<input type="checkbox"/> yes	<input type="checkbox"/> no
5	<p>Extras (medical or other) to be provided or any other thing that, as charity, we must take into account to make this vacation for the sick child and family as pleasant and carefree as possible:</p> <p>..... </p>		
6	<p>Subject to Beyond the Moon's approval of the application for the aforementioned sick child and should the sick child's medical situation not (drastically) deteriorate, I will sign the "Medical Authorisation" document no later than three weeks before the holiday departure date. Beyond the Moon will digitally send me the document to the e-mail address mentioned above. (Without this medical authorisation, Beyond the Moon will be forced to cancel the vacation.)</p>	<input type="checkbox"/> yes (*)	

(*) On behalf of the family, thanks in advance for the follow-up.

I took note of the selection criteria on page 3 for the granting of a free Beyond the Moon vacation to a family with a sick child. (Also available online via: <https://www.beyondthemoon.org/en/wat-we-do/offer-a-vacation/af>)

I declare that I received the family consent to complete this "Patient Summary" document (3 pages) and that the information provided is accurate. **This document will be taken on vacation by the family.**

Beyond the Moon selection criteria:

Our selection process is based on a well-considered list of eight criteria. Before a family is taken into consideration, we carefully examine every application in detail and discuss it with the primary care physician of the child and the medical team. The eight selection criteria for a BEYOND THE MOON stay (3 days (Fri-Sun) or weekend (Fri-Mon)) or BEYOND THE MOON holiday (midweek (Mon-Fri) or week (Fri-Fri/Mon-Mon)) are:

- 1. The child is aged between 3 and 18 years old.*
- 2. The child suffers from one (or more) of the following diseases:*
 - Serious progressive chronic disease: progressive pathology (more or less rapid) of long duration (6 months or more), strongly impacting the patient's quality of life, which can lead to other complications*
 - Chronic inflammatory disease: persistent inflammation of one or more organs, incurable, incapacitating, requiring lifelong treatment(s), leading to serious complications and disabilities*
 - Life-threatening illness: short-lived life-threatening condition due to a virus or bacteria*
 - Terminal illness vs palliative care: terminal stage of a serious illness no longer responding to curative treatment (very short life expectancy); active and comprehensive care provided to the advanced stage patient (long term: 3-6 months or more)*
- 3. The sick child wants to go on vacation (several days or a weekend) with his/her immediate family (parents and siblings).*
- 4. The child's physical condition must be good enough to allow him/her to travel and to fully enjoy. A written medical authorisation from the primary care physician is mandatory.*
- 5. This is a one-time holiday offered by Beyond the Moon to the sick child and all the family members living in the same household.*
- 6. If the family was granted a cost-free family vacation of more than one night by a charity or a wish-granting organisation, the family is not eligible, unless that family vacation took place at least five years ago. (Note¹: We rely on the honesty and sincerity of the families who apply, knowing that there are many families with sick children, who have never claimed a free vacation. Note²: In case only the sick child was granted a daily trip or a vacation or another wish (e.g. got something material, met someone famous...) by a charity or a wish-granting organisation that was not a family vacation, then an application may be submitted at Beyond the Moon.)*
- 7. The child's illness (expensive care and high medical costs) is a significant financial burden for the family. One parent often stays at home (or both) or has given up work to take care of the child or the parents are divorced, sometimes due to the illness of the child. Result: going on vacation is ruled out and impossible but would be beneficial to recharge their batteries.*
- 8. All family members, including the sick child, must be covered by a valid travel and medical insurance policy, conceded by the National Health Service or a local and recognised insurance company. This potential cost will be reimbursed by Beyond the Moon, subject to prior consultation and approval.*
