Characteristics

P.T.B.-CEMENT is a cement based on the Portland clinker.

- **Grey:** CEM I 52,5 N, is a Portland cement consisting of 95-100% cement clinker. The compressive strength after 28 days on normalized mortar following EN 197-1 (water/cement factor = 0,5) is at least 52,5 MPa.
- **White:** CEM I 52,5 R SR5. The compressive strength after 28 days on normalized mortar following EN 197-1 (water/cementfactor = 0,5) is at least 52,5 MPa.

Packaging

P.T.B.-CEMENT is packed in bags of 5 kg. P.T.B.-CEMENT can be kept for 6 months in the original, unopened packaging when stored in a dry place.

As the applications of our products are diverse, no single application guideline can be laid down. All product data reflect the state of knowledge of our products at the time of publication. Therefore all suggestions and recommendations concerning the use of our products are merely illustrative. Apply the product on a small and insignificant spot before starting to use our products to be sure the desired result is obtained. Always ask for the technical sheet of our products. Visit the website www.compaktuna.be. Consult our "technical department" which can be reached for free on the green number 0800/92279. The Dutch text shall be exclusively binding. Version 10/02/2014.

BVBA POLYTECHNISCH BEDRIJF is EN ISO 9001 certified | Certificat: BE 04/01432
