Aluminium garden fences made-to-measure

Formino designs and manufactures **made-to-measure** aluminium garden fences. Our fences are an example of architectural design. The refined design in combination with well considered material choices reduce installation time and create a durable final product. Enjoy a maintenance free fence, which by a wide selection of dimensions and colors, matches every type of home.

Discover all types of our Formino made-to-measure aluminium garden fences, with matching accessories.

Minimal

Aluminium planters made-to-measure

The minimal planter has a similar design as the fence. These are made out of **powder coated** aluminium limiting maintenance to a simple wash. The planters have a modular construction which allows you to personalize your planter in size and color.

Optionally the planters can be equipped with LED lighting: turning your garden or space into a luxurious atmosphere.

Modern garden fence in aluminium

Discover Minimal from Formino: a **modern fence** with a sleek design, made out of powder coated aluminium. Enjoy a **maintenance free** garden fence: cleaning is limited to a simple wash. The patented panels are made of aluminium profiles that hook perfectly together for a solid and windproof whole. The panels are mounted in slotted posts, preventing a gap between the panel and the posts, so your privacy is guaranteed. Combine with our matching door for even more discretion.

Colors

Black

Sand

Greybrown

These are our standard colors, but our fences are also available in any RAL-color.

More information

Would you like more information about accessories and dimensions? Please turn to the final pages of this brochure.

Privacy proof

Because our aluminium profiles hook perfectly together, the Formino gapless fence guarantees your garden privacy.

Urban

Urban garden fence made-to-measure

Looking for a maintenance free made-to-measure garden fence? Go for a garden fence with flat panels made out of powder coated aluminium which **limits maintenance** to a simple wash. The **patented panels** are made of aluminium profiles that hook perfectly together for a solid and windproof whole. The panels are mounted in slotted posts, preventing a gap between the panel and the posts. The matching door guarantees optimal privacy!

Aluminium planters in urban style

In terms of design, the Urban planter fits perfectly with the Urban garden fence made of aluminium. The planters are also made of **powder coated aluminium** meaning the maintenance is limited to a wash. The planters have a modular structure and can be delivered in various sizes and versions.

Would you like to add LED lighting to your planter? Go for it!

Colors

Black

Sand

Greybrown

These are our standard colors, but our fences are also available in any RAL-color.

Anti-graffiti coating

Optionally Formino offers you an anti-graffiti coating. This chemical resistant coating allows you to easily remove graffiti by using the appropriate product supplied by Formino.

Planters made of aluminium and padauk

The fusion planter has a similar design as the fusion fence. These are made out of **powder coated aluminium** and sustainable padauk. The combination of these materials ensure a long lifespan and limit maintenance to a simple wash. You can customize the finish and dimensions of the planters. You can also choose a modular construction or add our LED lighting for a cosy atmosphere.

Colors

Black

Sand

Greybrown

These are our standard colors, but our fences are also available in any RAL-color.

FSC, certified sustainable wood

Padauk is a very resistant and durable type of tropical wood. The padauk used by Formino meets the FSC requirements, which means the wood is obtained through sustainable forest management.

Aluminium garden fence with padauk

You like the combination of aluminium and wood? Formino offers you a made-to-measure garden fence, that combines the two materials into a **magnificent design** and a **long lasting** fence. Wooden slats or colored aluminium profiles slide into an aluminium base structure. You can choose any RAL color.

The combination of wood and aluminium provides a cozy appearance. Padauk is a very resistant type of wood that gets an authentic gray weathered look when it ages. In combination with powder coated aluminium, this garden fence is durable and dirt repellent, resulting in very limited maintenance. The aluminium based panels hook perfectly together to obtain a solid and **windproof** whole, **without any look through**.

Select your options

LED LIGHTING

Get LED lighting in the same standard color as your fence. Power consumption is low, a warm white LED lamp is included. No visible wires as they are neatly hidden in the posts.

BENCHES

Our benches perfectly match your aluminium and padauk Fusion fence. They are equally robust and maintenance friendly.

Why choose Formino aluminium garden fences?

Alu 100% recyclable

Aluminium is easily recycled. It's a metal that never goes to waste, which means that in the end you get paid to recycle it.

Durable

Aluminium has a long lifespan because it resists all weather conditions. It doesn't rust. The ideal material for a durable fence.

Made in Belgium

Formino aluminium garden fences are 100% made in Belgium. Quality is monitored from raw material to the finished product.

Any RAL color

Make your choice. We can powder coat aluminium in any possible RAL color. Determine what color you prefer and matches your house.

Maintenance free

Say goodbye to sanding, oiling or painting. Aluminium is a strong material! When powder coated, it becomes dirt repellent and maintenance friendly. By using this material, maintenance of our fences and planters is reduced to a sporadic simple wash.

Privacy proof

Because the aluminium profiles hook perfectly together, you enjoy a fence without any look through at your garden privacy.

Did you know... a Formino garden fence is much more affordable than a brick wall? Feel free to ask us for an offer and find out for yourself.
