

Facade renovation Blankenberge

Blankenberge • Belgium

Case

A residence in Blankenberge recently received a total facade renovation. Located right on the pier, the building is constantly faced with extreme salinity in the air, hot temperatures or stormy weather, seagull droppings that are highly corrosive....

Bruno Stoffyn of Healthywall relied on Libert Paints' paints to tackle this job.

The result is definitely one to be proud of!

Coating system

- Pretreatment: degrease the surface to be painted with Libert Eco-Degreaser
- System:
 - Base coat: 1 coat Cryltane DTS 20 + Silane Additive
 - Final coat: 1 coat Mixtane Spray white high gloss
