

## Facade renovation Blankenberge

Nazareth • Belgium

### Case

Domino's new showroom recently received a total makeover inside and out. The facade consisting of corrugated metal sheets was taken in hand and transformed from gray and pink to a sleek, matte white color with black accents that are UV-resistant.

The inside was also completely renovated, where the same colors as the building's exterior were used. The result gives a completely different, more modern look.

### Coating system

- Exterior facade: **Cryltane DTS 40 (RAL 9010)**  
Application method: Spray application
- Windows: **Cryltane DTS 40 (RAL 9005)**  
Application method: Spray application
- Ceiling - Metalstructure: **Cryltane VHA 710 (black)**  
Application method: Spray application
