Libert Paints, A brand you can trust

Made in
Belgium
Since 1874

Libert Paints, founded in 1874, has developed over the years into a leading brand in the Belgian paint industry. Although the brand has its origins with the Libert family, it is now produced by Aalterpaint, a paint manufacturer known for its industrial coatings and customised technical advice, based in Aalter.

Libert Paints remains synonymous with high-quality paint systems and coatings, with an extensive range of products for both industrial applications and traditional building paints.

Flexibility, individual service, client-oriented innovation and high quality remain the brand's core values. Libert Paints is also committed to environmentally friendly and user-friendly solutions, with a complete range of water-dilutable paints and solvent-free coatings.

CORROSION SOLUTIONS

Two-component acrylic polyurethane paints with a very good adhesion to steel, aluminum, galvanized surfaces, stainless steel, CRS, synthetic surfaces, mineral surfaces, ... Areas of application:

- Pedestrian bridges
- OEM machines
- Transport: railways, trucks & busses
- Street furniture
- Healthcare and food sector
- ...

Direct-To-Substrate

- Crytane DTI 20
- Crytane DTI 60
- Crytane DTS 20
- Crytane DTS 40
- Crytane DTS 60
- Crytane DTS 80
- Crytane AC Specials
- Crytane AC VHA
- Crytane AC Texture

HIGH-PERFORMANCE FINISHING COAT

Two-component high-performance acrylic polyurethane lacquers with high-quality properties for:

- Vehicles, trucks, tank trucks
- Tools & agricultural machines
- Cranes & heavy construction vehicles
- Maritime applications
- Parkings, floors
- Garage gates
- ...

Mixtane

- Mixtane Spray (Rapid)
- Mixtane Roller
- Mixtane Clear
- Mixtane Texture D/F/M
- Mixtane Roller Texture
- Mixtane Spray Sparkle

MOISTURE CURING PAINT SYSTEMS

One-component systems that can be used in extreme climatic conditions thanks to their high-quality polyurethane resins and their specific formula:

- Maritime environments
- Bridges & locks
- Cranes
- Storage tanks
- Pipelines & offshores
- ...

Moisture Curing Urethanes

- Polyfix
- Polysilco HS Universal
- Polyzinc
- Polymicace
- Polyguard

NEW GENERATION INDUSTRIAL COATINGS

One and two-component polyurethane and epoxy paint systems with good adhesion to steel, aluminum, galvanized surfaces, stainless steel, ... for the anti-corrosion protection of:

- Rolling material
- Machines
- Furniture
- Steel constructions
- Storage tanks
- ...

New Generation 1K & 2K

- Monoprim
- Monotop
- Oxycoat HS

- One-pot system
- HACCP approved
- Easy to use
- Good chemical and UV resistance
- Long-term protection
- Spray application: wet-on-wet possible
- Corrosion protection

- High abrasion resistance
- HACCP approved
- Also in texture version
- Sparkle effect possible
- Good chemical and UV resistance
- Fast drying

- Easy to use
- Higher layer thicknesses possible
- No mixing errors possible
- No pot life
- A lot of time savings
- Less packaging waste
- Durable corrosion protection

- Long-term protection
- Minimal maintenance
- Easy to use
- A lot of time savings
- Higher productivity
- Corrosion protection

Building paints

INDOOR PAINTS

High-quality, water-based paints for interior walls and ceilings with very good adhesion on mineral surfaces, old paint layers, ...

Areas of application:

- Villas
- Schools
- Garages
- Offices
- Public buildings
- Hotels & restaurants
- ...

Wall Indoor

- Aquafix
- Hydroprim
- Liboprim
- Supermat
- Plafond
- Acrylon
- Hydromat
- Liboclean
- Libodur
- Libomat
- Libotex
- Libotop
- Softmat

OUTDOOR PAINTS

Water-thinnable and solvent-based facade paints for mineral surfaces, aerated concrete, already painted surfaces, natural stones, ...

- Villas
- Schools
- Houses
- Public buildings
- Walls of underground car parks
- ...

Wall Outdoor

- Acrylon Satin
- Acrylon Gloss
- Acrylon Filler MFR
- Cryltane CF Impregnation
- Cryltane CF Finish
- Libodur
- Resacryl Satin
- Resacryl Mat Velouté
- Resilox VI (Fixprim/Quartz MFR/Finish)

WOOD PAINTS

Water-based and solvent-based primers and top coats. They can also be applied to ferrous, non-ferrous and plastic surfaces with an appropriate primer.

- Villas
- Schools
- Houses
- Public buildings
- Kitchens & bathrooms
- ...

Wood

- Aqualaq Mat
- Aqualaq Satin
- Primer Resit Plus
- Resolaq Aqua Primer

PAINTS FOR METALS

Thanks to their universal adhesion and anti-corrosion properties, the Libert metal protection paints can be applied to ferrous and non-ferrous surfaces for indoor and outdoor applications.

- Buckets
- Sheet metal work
- Tools & machines
- Containers
- Gates and fences, ...

Metal

- Durotop 55/85
- Durozinc HS AllPrimer
- Monofer 30/70
- Multiprim Aqua
- Satilux-U-Extreme

- Water based
- High covering power
- Odourless
- Washable
- Easy to use
- Easy to maintain
- Wide choice of gloss levels
- In all colours available

- High covering power
- Universal adhesion
- Easy to use
- Easy to maintain
- Wide choice of gloss levels
- In all colours available

- Water or solvent based
- Excellent flow properties
- Scratch resistant
- Replicable on different types of surfaces
- Available in matt and satin finish
- In all colours available

- Water or solvent based
- Universal adhesion
- Anti corrosion properties
- Good protection
- Qualitative and durable
- Available in satin and glossy
- In all colours available

Floor paints for industrial applications

FLOOR PAINTS

Unique formulas based on high-quality polyurethane and epoxy resins for:

- Production areas
- Warehouses
- Stores
- Showrooms
- Garages
- ...

- Industrial use
- High wear resistance
- HACCP approved
- Anti-slip systems
- Waterborne
- Solventborne
- Solvent free

Floor Paints

- Aquafloor
- Durofloor
- Durotane Primer Texture
- Durotane SH 60
- Mixtane Roller
- Monofloor PU 60
- Oxypaint SL Floor
- Oxypaint SL Floor Primer
- Polyfloor
- Polyfloor Primer
- Polytop Satin
- Solfix
- Strato

Hygienic Solutions HACCP approved solutions

CLEAN ROOM PAINT SYSTEMS

Paint systems that meet strict hygiene and HACCP requirements as well as high quality requirements. Due to the combination of different premium products, Libert Paints' paints can be used in:

- Food and dairy companies
- Medical and pharmaceutical companies
- Hospitals and doctors' offices
- Restaurants and industrial kitchens
- Nurseries and schools
- Rest homes
- ...

- Easy to use
- Chemical resistance
- Colour and gloss stability
- Good impact resistance
- Very good wear and scratch resistance

Saniguard

- Aquafloor
- Aquapox
- Oxypaint SL Floor
- Cryltane CF Finish
- Cryltane DTS 20
- Cryltane DTS 40
- Cryltane DTS 60
- Liboclean
- Mixtane
