

AMPHORA - MARIE-LOUISE BOAT

Belgium

MCU's

Moisture curing paint systems MCU (Moisture Curing Urethanes):

- Environments with relative humidity up to 99%.
- Long corrosion protection, even under extreme climatic or environmental conditions.
- A complete range of (hybrid) systems (incl. Immersion products) according to ISO 12944.

Thanks to their high-quality polyurethane resins and their specific formula, they can be used in extreme climatic conditions: from Siberian to equatorial climates.
