

DUMP TRUCK CML

Libramont • Belgium

CML Industries, a company specialized in the construction of special equipment and machines for the railways and building sector, is a regular user of our DTS/Mixtane paint system.

Our new epoxy paint **Oxyprim** is an ideal alternative for the protection of dump trucks. The product offers the possibility to increase the layer thicknesses on the welds, while guaranteeing at the same time a better and smoother finish.

System

- Preparation: sand blast SA 2,5
- Primer: **Oxyprim**
- Top coat: **Mixtane**
