

POSISTOP - CHUCK STOP

PosiStop is a chuck stop that replaces all forms of distance sleeves and soft jaws normally used when turning short workpieces.

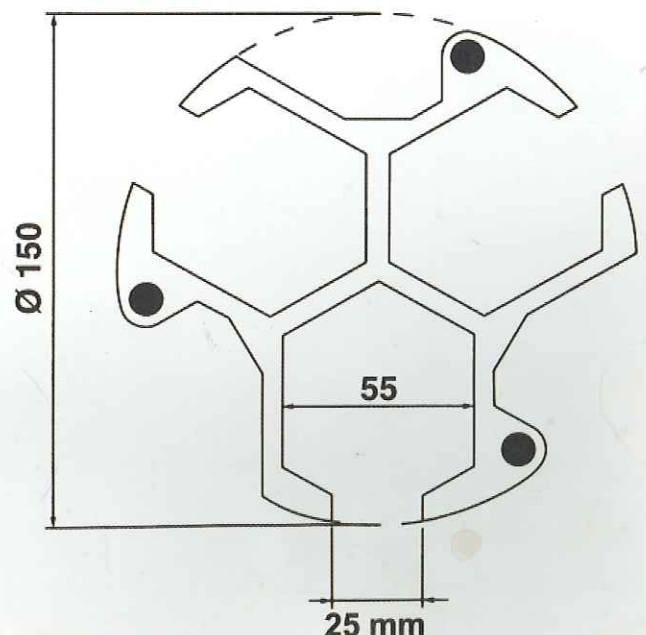

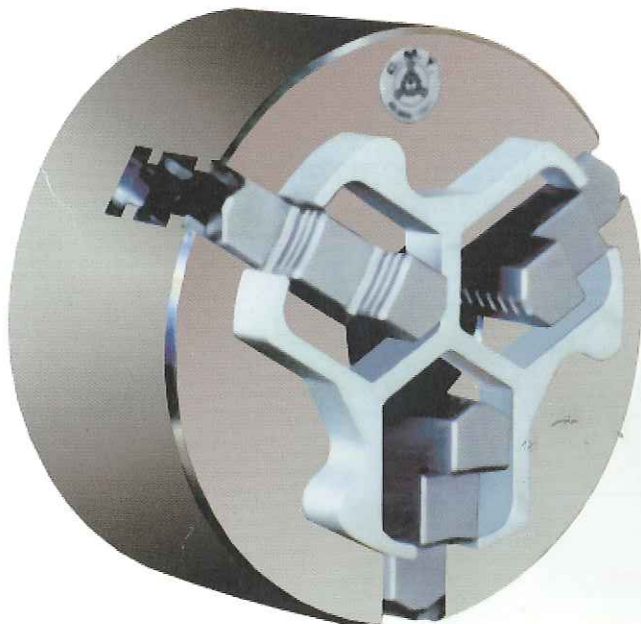

PosiStop mounts securely against the chuck face (using three strong magnets), providing a fixed reference surface for workpieces to locate against. Interlocking design coupled with strong magnets holds stop securely in place.

PosiStop reduces setup time and increases productivity.

The standard width of jaw is 25 mm, but can easily be milled or saw-cut larger for chucks with wider jaws.

PosiStop is available in six different thicknesses; 15, 20, 25, 30, 35 and 40 mm.

Anodized aluminium finish provides good wear-resistance.

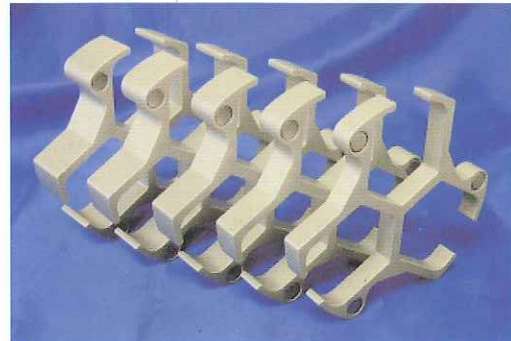

POSISTOP - CHUCK STOP

Art No.	Individual PosiStops
PS-15	1 pce PosiStop thickness 15 mm
PS-20	1 pce PosiStop thickness 20 mm
PS-25	1 pce PosiStop thickness 25 mm
PS-30	1 pce PosiStop thickness 30 mm
PS-35	1 pce PosiStop thickness 35 mm
PS-40	1 pce PosiStop thickness 40 mm

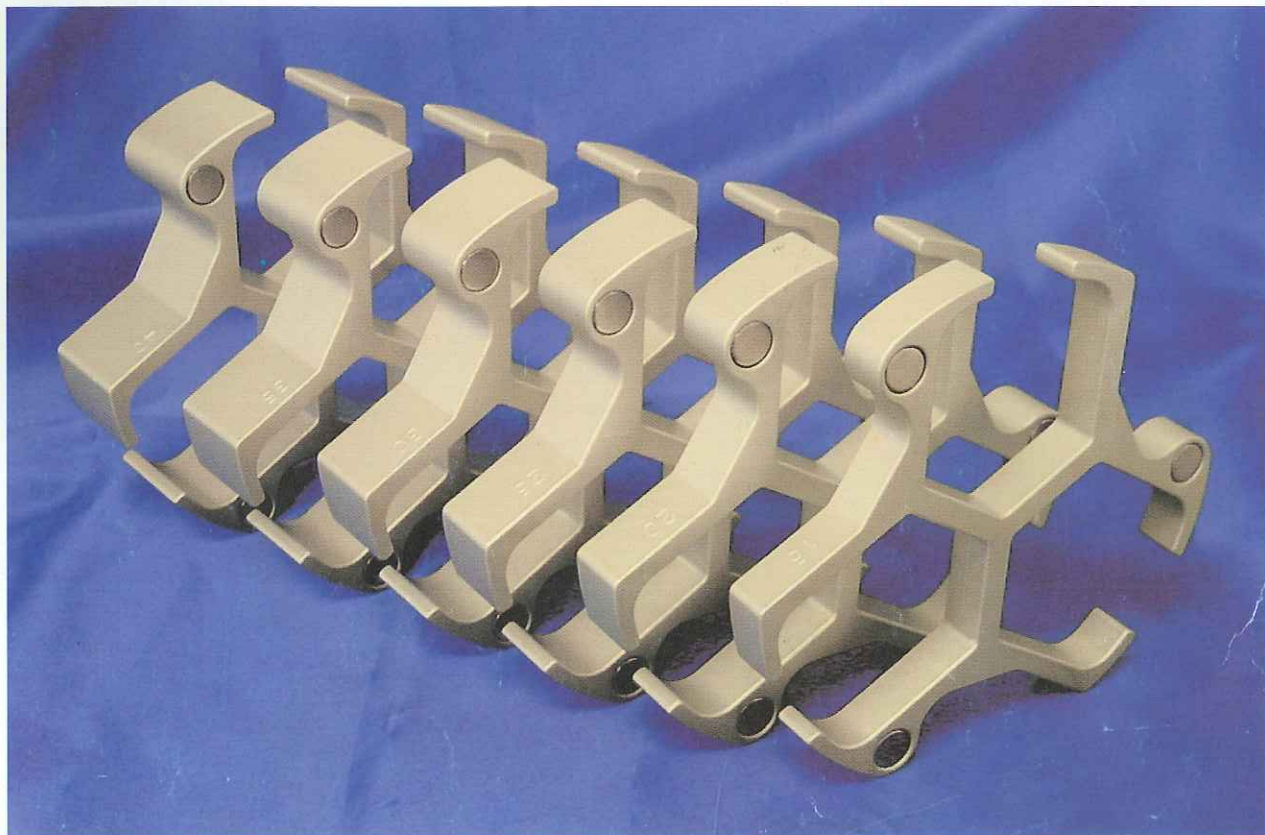

Art No.	PosiStop sets
PS-SET3	Set of 3 pcs - one of each 15 / 20 / 25 mm
PS-SET4	Set of 4 pcs - one of each 15 / 20 / 25 / 30 mm
PS-SET5	Set of 5 pcs - one of each 15 / 20 / 25 / 30 / 35 mm
PS-SET6	Set of 6 pcs - one of each 15 / 20 / 25 / 30 / 35 / 40 mm
