Baselayer

Midlayer

Protection Layer

DON'T BREAK THE CHAIN.

Craft Principle

Since 1977 we have been actively involved in the research and development of ventilation and moisture dispersal properties for different fabrics. The fruit of these efforts is the Craft Principle, our way of providing functional training and competition wear that ensures the best body micro-climate (the temperature and moisture conditions closest to the body) for optimal performance.

An intensive training session will result in the body producing a considerable amount of sweat. This is just how it should be and a confirmation that you are pushing your limits. If you are not wearing functional clothes, the sweat will remain in place and block the pores, causing your body heat to rise. Eventually the clothes will turn into a damp, cold and heavy “envelope”, relentlessly hampering your performance.

If you are wearing functional clothes, however, the skin will stay dry and you will be able to perform at an ideal working temperature. Craft's functional clothes, in up to three layers, create a perfect microclimate and provide the basis for optimal performance. Each layer is equally important and complements the rest of the chain.

Baselayer

Base layer that efficiently transports moisture away from the skin and distributes it on the outside of the garment, where it either evaporates or is passed on to the next layer. For optimal performance and comfort, Craft baselayer should always be worn underneath your outer layers, regardless of weather conditions.

Midlayer

Craft midlayer provides insulation and warmth while transporting moisture and excess heat to the next layer or into the surrounding air. When the thermometer creeps downward, this layer enables you to retain valuable body heat without reducing your freedom of movement.

Protection layer

The third and outermost layer is your shield against the elements and provides comfort and performance no matter the conditions. Transcending the laws of logic, craft protection layer protects against rain, wind and cold at the same time as it releases surplus heat and moisture from the layers underneath.

Size guide

Use the chart below to determine your size. If you're on the borderline between two sizes, order the smaller size for a tighter fit or the larger size for a looser fit. If your measurements for chest and waist correspond to two different suggested sizes, order the size indicated by your chest measurement.

How to measure yourself

MEN

A. CHEST

Wrap a tape measure evenly around the fullest part around the chest under your arms.

B. WAIST

Wrap a measure tape around your natural waistline.

WOMEN

C. SEAT

Standing with your feet together, measure around the fullest part of your hips.

D. SHOULDER AND SLEEVE LENGTH

Measure from the lowest part of the neck, over the tip of the shoulder and down the outside of the arm, past the elbow and to the wrist. Keep the arm slightly bent.

JUNIOR

E. INSIDE OF LEG

Standing with your feet together, measure from the crotch all the way down to the floor. Don't forget to stand as straight as possible. You may have to ask a friend to help you.

F. LENGTH

The total length of your body.

SIZE	S/M	L/XL
Around head	54/56	58/60

Size guide footwear

How to measure your feet

Step 1
Stand up straight on a hard surface with your heel against the wall and a piece of blank paper taped to the floor.

Step 2
Have someone mark the longest part of your foot (referred to as heel-to-toe length) on the paper with a pen or pencil, or measure yourself if necessary. Repeat with the other foot, as sizes may be different on left and right foot.

Step 3
Use a ruler to measure the heel-to-toe length you marked for each foot.

MEN			
UK	US	EU	Heel-to-toe (cm)
6	7	39½	25
6½	7½	40	25,5
7	8	40¾	26
7½	8½	41½	26,5
8	9	42	27
8½	9½	43	27,5
9	10	43½	28
9½	10½	44	28,5
10	11	44½	29
10½	11½	45	29,5
11	12	45¾	30
11½	12½	46½	30,5
12	13	47	31
13	14	48½	32
14	15	49½	33
15	16	50½	34

WOMEN
